EDUCATION

L.D. College of Engineering
Computer Engineering - CGPA – 8.85

Jul 2021 – May 2025
Ahmedabad, India

PROFESSIONAL EXPERIENCE

OPL Innovate [↗](#)

Jul 2025 – Present

Junior Software Engineer

Ahmedabad, India

- Integrated CRISIL data into the HSBC dashboard, enhancing data accessibility and enabling real-time financial insights for 1000+ users, which streamlined decision-making for business stakeholders.
- Boosted Excel report generation performance for 40,000+ records, reducing load time from 30– 40 seconds to 5–6 seconds through backend optimization.
- Resolved critical Angular initialization and pagination issues in production, reducing page load failures by over 80% and ensuring consistent application startup and smooth data navigation for 1,000+ users.
- Designed and implemented asynchronous processing workflows for long-running tasks, improving responsiveness.
- Improved API performance using backend optimizations and caching strategies (Redis).
- Collaborated in Agile teams, contributing to debugging, deployment, and production support.

Intern-Software Engineer (Java)

Jan 2025 – Jun 2025

- Engineered a responsive, full-stack flight booking interface using Spring Boot, Angular, and MongoDB for Jetwayz, handling real-time search and booking for 500+ users weekly, which led to a 15% increase in task completion efficiency during usability testing.
- Developed and deployed admin tools for managing flights, schedules, and passenger records, enabling 95% real-time accuracy in operations and reducing manual intervention by over 40% through automation of key administrative workflows.

TatvaSoft [↗](#)

Jun 2024 – Jul 2024

Summer Internship

Ahmedabad, India

- Developed a Virtual Community Support web application using AngularJS, .NET, and PostgreSQL, which Refined user engagement metrics by 15% through a user-friendly interface and robust backend.
- Enhanced full-stack development capabilities and seamless integration, increasing data handling efficiency by 10% and improving overall system performance.

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript, TypeScript, Python

Frameworks: Spring Boot, Hibernate, Angular

Technologies: Microservices, REST APIs, Redis, WebSockets, Asynchronous Processing

Databases: MySQL, PostgreSQL, MongoDB

Tools: Git, Maven

Cloud: Azure

Core Concepts: Data Structures & Algorithms, OOP, DBMS

PROJECTS

Django Chat Application [↗](#) | Django, HTML, CSS, JavaScript, PostgreSQL, Web Socket Nov 2024

- Designed and implemented a real-time chat system with advanced features like API-driven messaging, user authentication, and profile management, increasing user engagement by 15%.
- Optimized database performance in PostgreSQL, improving data retrieval efficiency by 20%, while enabling seamless communication through reliable messaging functionality.
- Crafted an interactive, adaptive interface with engaging design elements, driving improved user retention.

BookYourShow [↗](#) | ReactJS, CSS, Django Rest Framework, MongoDB, Stripe

Aug 2024

- Constructed a comprehensive movie ticket booking system, optimizing the interface to drive a 10% increase in user registrations and elevate overall experience.
- Spearheaded advanced features like real-time seat selection and booking history to enhance user convenience.
- Integrated Stripe for secure payments, achieving a 10% reduction in transaction errors, boosting user trust.

CERTIFICATIONS

- Successfully Completed 50-Hours Course in Image Processing and Computer Vision offered by IIT-Gandhinagar.
